

Invited personnel : Prof. Kuo-Fong Ma, National Central University, Taiwan

Host researcher : Takeshi Sagiya, Nagoya University

Period : July 30 - August 5, 2017

Purpose : To serve as a chair of a special session J05 “Crustal Dynamics: multidisciplinary approach to seismogenesis” as a session convener.

Seminar information : August 1 (Tue) and 2 (Wed), Rm 501, Kobe International Conference Center

As a co-convener of the session, Prof. Ma served as a chair for the oral sessions for two days, leading discussions following the presentations. There were 27 talks (including 3 invited talks) and 16 posters, without cancellation. The oral sessions were well attended throughout the 5 time slots, and interesting presentations were followed by many questions and answers. A lot of discussions took place at the poster session as well.
