

Invited personnel : Tim J. Wright (University of Leeds)

Host researcher : Yukitoshi Fukahata (DPRI, Kyoto University)

Period : 20th - 30th May 2017

Purpose : Discussion on crustal dynamics from the view point of observed geodetic (particularly, coseismic and interseismic deformation) data.

Seminar information :

Date: 29 May 2017, AM 10:30 - 12:00

Location: New building of Research Center for Earthquake Prediction, Uji Campus, Kyoto University

Title: Some surprising new results from tectonic geodesy in the continents
